

## THE 0406 PROJECT

*For nineteen years you have blessed the earth,  
With your beauty and grace and your wonderful  
heart,*

*You are not a goddess for that is less,  
It doesn't qualify your essence,*

*My admiration of you knows no bounds,  
And your companionship, I'm glad to have found,  
I could sprint a million times in a minute or two,  
It still won't affect my heart the way you do,*

*For you, only blessings I wish,  
Happy birthday Eniola, fuck you bitch!*
