

ENOUGH.

My love is always enough for her,
My kisses are always enough for her,
My appearance is always enough for her,
My behaviour is always enough for her,
My gestures are always enough for her,
She's never looking outside or wondering,
"what if?"

I have no doubt about it,
Because I am more than enough for her.

COLLISION

We cannot foresee these events,
Nexuses in our lives,
Occurrences that seem heaven-sent,
From these things, one cannot hide,
Perhaps the greatest was meeting her,
Indeed I was incomplete before,
And she changed my life for the better,
The collision I was always hoping for.

LOCKED IN

Quite the hold you have on me,
Your smile, your laugh rock my world like
an earthquake,
Your touch, your voice give me sensations
yet to be discovered,
The way you control my heart needs to be
studied,
It beats like the hummingbird's wings at
the mere thought of you,
My mind, my soul, my being intertwined
with yours,
Unbreakable and tightly, you have me
locked in,
My love, quite the hold you have on me.

FOR YOU

Someone you want to spend every minute with,

Someone who makes you happy in ways you never imagined,

Someone who gives you goosebumps and sensations,

Someone you want all your life,

Someone that's your person,

I never knew I would be that someone to a person,

But there's no one else I'd rather be for,

As I am for you, you are for me darling.

ADORATION

The most gorgeous smile,
Those shiny golden eyes,
That sensational scent,
That amazing body,
The sweetest skin,
My wonderful woman,
Goodness gracious! Literally everything
about you,
My love, I absolutely adore you!
